THOMES INTRESTOCKS

RICH FIND MADE WEST OF LAKE

Sheepherders of Tooele Find Ledges With High Values.

GROUND WILL BE EXPERTED

NEW YORK SHIPMENT IS WORTH ABOUT \$3,000.

A discovery has been made in the mountains west of the Salt lake which, Judging from the character of the ore and the reports that have been made concerning it, can hardly fail of causing a rush into the country when the exact location of the find has been made public. The discovery was made by a couple of Tooele sheepherders who had some knowledge of mining and minerals. They exhibited some of the ore at Stockton, and Chance McKendrick, an old Parkite, went out with them to size up the proposition.
Upon his return to Stockton he had

assays made on the ore at the Honerine company's assay office with results that were little short of startling. Three different samples were taken along the ledge for a distance of twenty feet. No. 1 gave returns of 285 ounces silver, 14.5 per cent lead and 7.2 per cent cop-per. No. 2 went 42 ounces silver and per. No. 2 went 42 ounces surve. 54 per cent lead, while the third samran 121.6 ounces silver, 40 per cent lead and 13.9 per cent copper. At a point some 800 feet distant from where these samples were secured, and apparently on the same ledge another sample was taken which assayed 440 ounces silver, 50 per cent lead and 6.3 Per cent copper.
Samples of the ore and the assay G

Samples of the ore and the assay certificates were brought in by Mr. McKendrick early in the week and land before the force in the offices of the Western Exploration company. Before the left arrangements were made to the left arrangement were made to the left arrangement were made to the left ar west and laid before the force in the offices of the Western Exploration company. Before he left arrangements were made to have an expert go out and investigate the discovery and, if it turns out to be all that appearances indicate the boys here will join with the original land. here will join with the original lo-cators and provide the money for the development of the ground. A predevelopment of the ground. A pre-liminary agreement has been entered into and, when the proper time comes, a company will be formed in order that each interest in the proposition may be properly taken care of.

With the ore Mr. McKendrick brought in samples of the quartzite and porphyry that he took to be the formation walls of the ledge and this ma-terial is so characteristic of lode formations that mining men and experts who have looked over the samples have

no doubt of the value of the region from which they came. While the location of the discovery is being carefully guarded for the present it, seems quite certain that it is in the Newfoundland district, a great mountain that rises abruptly out of the desert or old lake bed, twenty miles or more south of Terrace. Some good properties already exist there, but it is doubtful if anything approaching in richness the ore shown has ever

been found there in quantity before.

After the men who have become interested in the proposition have fully determined its merits and have seormation concer cation of the discovery will be released.

REGION ABOUT FREIBURG.

Something About a Section of Nevada Now Attracting Attention.

As the region about Freiburg, which is sixty miles west of Pioche, as the crow flies, is just now attracting a great deal of attention in the ranks of prospectors and men who are sending their representatives into Nevada in search of good things, the following from the De Lamar Lode will be of particular interest:

"Freiburg was at one time a lively little camp, and at present there are good prospects ahead. While Pioche was flour-ishing a number of claims were being worked for the rich deposits of silver and lead. Some of the ore, sorted, carried from seventy-five to 350 ounces silver, and contained as high as 50 per cent lead.

"Judge C. C. Goodwin and other well known operators owned claims in the district, and the outlook was indeed encouring and activity and the outlook was indeed encouring from the deposits of silver and lead defined the claveland administration of silver and lead of silver and lead of silver and lead of silver and lead of silver and contained as high as 50 per cent lead.

"Judge C. C. Goodwin and other well known operators owned claims in the district, and the outlook was indeed encouring from the deposition of silver and lead of the company of the known operators owned claims in the district, and the outlook was indeed encouraging. The depreciation of silver and lead during the Cleveland administration caused the abandonment of the camp.

"James Reed worked there for some time, and made a shipment of ore running 350 ounces silver, but as it had to be freighted to Milford and thence to Salt Lake it was found to be unprofitable, and all work practically ceased. Nesbitt Bros. became interested in the district with Mr. Reed, and today own some very valuable claims. They are at present bonded to the Bethel Mining company, consisting of Salt Lake, Ogden and Michigan parties.

"The veins are well defined and lie between lime and quartzite. It is believed that with improved methods of working the veins, and the better facilities for shipping, the properties can be worked at a profit. The worst drawback is the danager of litigation, as two companies conflict on some of the important claims.

North and West.

"Troy lies north of Freibus."

With very few trades. Since the break in Green Consolidated from \$M to \$22, there is considerable interest in the stock and the strock and the street with the traders in this market. Quotations:

Sales, Op. High, Low, Cl.
Bingham ... 210 \$233 \$234, \$234, \$233, \$234, \$234, \$234, \$234, \$235, \$234, \$234, \$235, \$234, \$234, \$235, \$234, \$234, \$235, \$234, \$234, \$235, \$235, \$234, \$235, \$23

"Troy lies north of Freiburg about forty miles, and but little exploration has been done between the two camps, although indications show that rich mineral deposits exist in that part of the country. At Troy a mill was erected and ore bearing gold, silver and lead was taken out. At present there is nothing doing in that camp.

Forty miles west from Troy is Reveille which twenty-five years ago produced high-grade chlorides. One mine, the Ely, produced over a million, and was owned by Governor Adams. Some work is being done by leasers, the product being shipped west to Tonorah.

About twenty miles west from Peek-a-

"About twenty miles west from Peek-a-Boo is the Groom mine, which contains large bodies of lead running from 60 to 65 per cent, and carrying from mineteen to twenty ounces silver. Still further south is the Great Eastern, also rich in lead. Twelve miles further west is the Park Springs district, in which are some fine veins of copper.

"There are many more old prospects that could be mentioned. In every direction from De Lamar are large fields open to the prospector, and which will undoubtedly attract the attention of investors. It may be truly said that the prospectors. pecting of Lincoln county is still in its infancy and that the future will show us many valuable mines in this locality at present undreamed of."

MAY DAY SHIPMENT.

First Thirty Tons From the Yankee

Fissure Bring \$925.

The May Day company has just settled for the first car of ore taken from the Yankee fissure on the 300-foot level below the tunnel of its property. The lot consisted of thirty tons and sold for \$925, or nearly \$31 per ton, net. Two more cars from the same point are now on the road to market, and Secretary John Campbell \$7498 that the same kind of material is being raised every day.

While it was not possible to learn exactly what condition the treasury of the company was in. it is safe to say that the surplus is now crowding the \$10,000 mark, and the promise is made that considerable ore will soon be coming to market.

NEW YORK'S SHIPMENT.

About \$3,000 Will Be Netted on Less During yesterday's calls on the mining exchange 38.460 shares of stock, with a selling value of 510.872.90, changed hands. There will be no calls tomorrow or Monday. The bears made an attempt or two to break Wabash still further, but all they succeeded in doing was to lose a Than Thirty-six Tons.

few blocks of stock at several cents under the market. In all over 1.000 shares changed hands. It opened at \$2.25 and closed at \$2.23.

Daly-Judge sold at \$5, Mammoth at \$1.45, but, aside from these transactions and those in Wabash, trading was confined to stocks selling for less than 50 cents t share.

May Day opened and closed on sales at 20c, though it dropped ½c lower than that during the trading. New York opened strong at 32c receded to 31½c, moved up to 33½c and closed at 32½c on the afternoon open board.

Little Chief was advanced to 33½c, while the balance of the active list managed to hold its own.

Following is the list of final quotations and record of sales made:

Ore and Bullion. Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$51,300; as follows: Sil-ver, lead, gold and copper ores, \$25,800; base bullion, \$32,300; gold bars, \$3,200.

Metal Markets. Silver, 611/6c per ounce. Copper, (casting), 141/6c per pound, Lead, in ore, \$3.00; New York, \$4.60 per 00 pounds.

Mining Notes.

A. A. Ball, treasurer of the Annie Laurie company, is up from Kimberley for Christmas. The Pioneer sampler yesterday reported two cars of ore from Nevada, one from Oasls, one from American Fork and one from Cottonwood. Lafayette Holbrook, president of the Grand Central company, was up from Provo yesterday interviewing Santa Claus.

A five-cent assessment was levied by the Lower Mammoth Mining company on Wednesday evening. Ten cars of ore from Tonopah and one from Tintic reached the works of the Taylor & Brunton Sampling company yesterday morning.

Manager Willard F. Snyder returned last evening from a two days visit of inspection at the Honerine. Rumors have been tlying around thick and fast of a whaling big strike in the Wabash. Everybody appears to know more about it than the management which regularly maintains that there is nothing to talk about at the present time. That there is more than "hot air" behind the present strength of the stock seems certain and in due time, presumably, news of a definite nature will be forthcoming.

If you need money for Christmas, see Cherry, 407 D. F. Walker building. THE HEART OF WOMAN AT CHRISTMAS TIME.

(Miss Wilson, in Life.) A fair young wife asked her husband what he desired above all else for a husband, being an astute and cau-man, thought deeply. ous man, thought deeply.
What could he suggest which she would
eem worthy of her bestowal, and which
hould yet be of a minimum cost? In-

A new photograph of yourself, darling."
"Just the thing," replied the wife. "But please forget that you have suggested it, for I wish my gift to be a real sur-

"Of course not. Send the bill to my husband."

Then she went to the furrier.

"I want some picturesque-looking furs with one of the enormous muffs."

The furrier bowed. "This sable set is one of the best things we have. It is worth the king's raissm."

"That will do," murmured the wife. "Send the bill to my husband."

When she finally obtained an audience with the great portrait photographer he was inclined to be a little difficult. "Of course," he said languidly. "there are only a few people I will take; but there is something in your face, a subtle hint of—an indefinable suggestion of—an er—er—Yes, I will take your photograph."

"Your price will not be over five hundred dollars?" she asked diffidently.

"For a dozen, no," he replied coidly.

"Very well; make it two dozen, and—and send the bill to my husband."

Soon after the advent of the glad New Year the husband sat in his office gazing admiringly at the new photograph in his watch and chuckling to himself over his successful ruse, when a sheaf of bills was brought to him.

As he opened one after another he trembled with a strong emotion and his face.

was brought to him.

As he opened one after another he trembled with a strong emotion and his face grew ashen white.

"Fool!" he cried, beating his breast.
"Fool! And I thought myself clever!
Had I known aught of the heart of woman I should have begged her to buy me some little thing out of her allowance, and she would have purchased a solid gold inkstand set with rubies at the Tencent store and presented it to me in a Tiffany box."

GALENA MINE, A UTAH CORPORAtion. Notice is hereby given that a special meeting of the stockholders of the Galena mine, a Utah corporation, will be held at the office of said company. Room 514 McCornick block, Sait Lake City, Utah, on the 4th day of January, A. D. 1995, at 1 o'clock in the afternoon of said day. Said meeting is called for the purpose of considering and passing upon the question of ratifying a certain contract made by the directors of said corporation on the 28th day of October, 1904, with the Utah mine, by which said contract said Galena mine leases the Rupy and Galena lode mining claims, situated in the Fish Springs mining district, Juab county, Utah, together with all machinery, tools and buildings owned by said company at Fish Springs, Juab county, and Oasis, Millard county, in said state, to the said Utah mine; and also agrees o sell all of said property to said Utah mine.

H. S. JOSEPH, President. Notice of Stockholders' Meeting.

Annual Stockholders' Meeting. Annual Stockholders' Meeting.

TO THE STOCKHOLDERS OF THE Copper Ranch Mining Company: Notice is hereby given that the annual meeting of the stockholders of said company will be held at the company's office, 232 D. F. Walker building, Sait Lake City, Utah, at 2 o'clock p. m. Monday, Jan. 2, 1905, for the purpose of electing a board of directors for said company for the ensuing year, and for the transaction of such other business as may properly come before said meeting.

B. T. LLOYD, Secretary.

Notice of Assessment.

BECK'S SALT COMPANY. PRINCIpal place of business, Salt Lake City, Utah.—Notice is hereby given that at a meeting of the trustees or directors held on the 15th day of December. 1944, an assessment of twenty (20) cents per share was levied on the capital stock of the corporation, payable immediately to R. L. Taylor, secretary of the company, at Ogden City, Weber county, Utah.

Any stock upon which this assessment may remain unpaid on the 15th day of January, 1905, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 2d day of February, 1905, to pay the delinquent assessment, together with the cost of advertising and expense of sale. Notice of Assessment.

R. L. TAYLOR, Secretary, Located at Ogden, Utah
